BUSINESS ANALYST | BI ANALYST | DATA ANALYST

Baltimore-Washington, D.C. Area | 240-997-3696 | kiranwilliams1997@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Business intelligence and analytics professional with 8+ years of experience across operations, workforce management, and education. Defines business questions and KPIs, validates data, and uses SQL, Excel, Tableau, and Cognos Analytics to build decision-ready reporting and dashboards. Brings strong stakeholder communication, customer service, and problem-solving skills to cross-functional teams.

CORE SKILLS

Analytics: SQL, Excel (PivotTables, PivotCharts, slicers), Tableau, Google Sheets, Cognos Analytics, data cleaning, exploratory analysis, dashboard development, KPI reporting, data validation, data governance

Business: requirements definition, stakeholder communication, business problem framing, KPI definition, decision support, operational reporting, root-cause investigation, process improvement, cross-functional collaboration

PORTFOLIO PROJECTS

Student Performance Analytics | Tableau | GitHub

2026

- Business problem: School leaders need one repeatable view of grades, attendance, behavior, interventions, and subgroup context to identify academic risk and prioritize student review.
- Data and analysis: Defined stakeholder requirements and connected five synthetic datasets covering 120 students, 480 grade records, 480 attendance records, 863 incidents, and 119 interventions. Built three dashboards with calculated fields, parameters, LOD expressions, filters, and dashboard actions.
- Result and decision support: Identified a 0.507 attendance-grade correlation and a 12.37-point grade difference below versus at-or-above 85% attendance. The dashboard supports schoolwide monitoring, subgroup investigation, and individual review while keeping intervention decisions under human judgment.

World Life Expectancy Analysis | MySQL | GitHub

2026

- Business problem: A global health organization needs an auditable way to monitor outcomes, compare economic peers, and prioritize countries for deeper review when resources are limited.
- Data and analysis: Preserved the raw layer and converted 2,941 records into 2,938 validated country-year observations across 193 countries. Used CTEs, window functions, conditional aggregation, correlations, longitudinal trends, GDP-peer benchmarks, and a transparent six-indicator score.
- Result and decision support: Found a 4.87-year increase in average life expectancy from 2007 to 2022 and identified schooling as the strongest positive correlate ($r = 0.784$). The workflow produces a traceable second-stage review list rather than an automatic funding decision.

Electronics Sales Performance Analysis | Excel | GitHub

2026

- Business problem: Sales leaders need to distinguish revenue-driving products from volume-driving products and understand where performance is concentrated across markets and categories.
- Data and analysis: Cleaned 30,394 raw rows into 30,206 validated transaction lines, standardized dates and addresses, defined revenue and order KPIs, and built an interactive Excel dashboard with PivotTables, PivotCharts, and connected city and category slicers.
- Result and decision support: Reported \$5.64M in revenue, 29,018 unique orders, and 33,969 units sold. Laptops and phones generated 61% of revenue, while batteries led volume but produced less than 1% of revenue, supporting separate merchandising decisions for demand and value.

EDUCATION AND CERTIFICATIONS

MBA (GPA: 4.0/4.0) | University of Maryland Global Campus

Expected May 2028

M.S., Data Analytics (GPA: 4.0/4.0) | University of Maryland Global Campus

Expected May 2027

Graduate Certificate, Business Analytics | University of Maryland Global Campus

Aug 2026

Google Data Analytics Certificate | Google

Sep 2021

B.A., Chemistry | University of Maryland Baltimore County

Dec 2020

PROFESSIONAL EXPERIENCE

Retail Operations Associate**Nov 2025-Present**

Kohl's, Laurel, MD

- Support inventory processing and order fulfillment across a 2,000+ unit environment while adapting to changing daily operational priorities.
- Provide customer service by responding to shopper questions and communicating inventory or order needs to the appropriate team members.
- Earned Associate of the Month within four months for operational performance and adaptability.

Guest Services & Operations Supervisor**Dec 2018-Present**

Chesapeake Employers Insurance Arena, Baltimore, MD

- Trained 50+ employees and supported real-time staffing and safety decisions during arena operations.
- Held ongoing conversations with arena leadership to communicate frontline observations, staffing needs, and operational concerns.
- Provided customer service to arena guests and communicated questions or concerns to the appropriate staff.

Middle School Science Teacher**Aug 2023-Jun 2025**

Anne Arundel County Public Schools, Odenton, MD

- Monitored performance, attendance, and behavior for 300+ students to identify patterns and students requiring closer review.
- Communicated findings and coordinated targeted supports with school leaders, teachers, families, and students.
- Responded to student and family questions, explained performance concerns, and communicated next steps with school staff.

Workforce Specialist**Oct 2021-Aug 2023**

UMBC Facilities Management, Baltimore, MD

- Coordinated hiring, onboarding, scheduling, and training for 20-30 student employees while providing day-to-day service and support.
- Analyzed work-order performance and contributed to operational changes that reduced response time by 20%.
- Analyzed employee satisfaction survey results and communicated workforce findings and recommendations to operational stakeholders.

High School Science Teacher**Sep 2020-Jun 2021**

Prince George's County Public Schools, Hyattsville, MD

- Evaluated performance and attendance patterns across 150-200 students.
- Built and maintained recurring Excel reports used for instructional planning and intervention decisions.
- Responded to student questions and explained performance, attendance, and support expectations in clear terms.
