

KIRAN WILLIAMS

BUSINESS ANALYST | DATA ANALYST | BI ANALYST

Baltimore-Washington, D.C. Area | 240-997-3696 | kiranwilliams1997@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Business and data analytics professional with 8+ years of experience across operations, workforce management, and education. Uses SQL, Excel, Tableau, and Cognos Analytics to turn complex data into clear reporting, dashboards, and practical recommendations. Brings strong stakeholder communication, customer service, and problem-solving skills to cross-functional teams.

CORE SKILLS

Analytics: SQL, Excel (PivotTables, PivotCharts, slicers), Tableau, Google Sheets, Cognos Analytics, data cleaning, exploratory analysis, dashboard development, KPI reporting, data validation, data governance

Business: requirements definition, stakeholder communication, business problem framing, operational reporting, workforce analytics, root-cause investigation, process improvement, cross-functional collaboration

PORTFOLIO PROJECTS

Citi Bike Operational Analytics | MySQL, Tableau | [GitHub](#)

In progress

- Business problem: Operations teams need to know when and where completed trip patterns may signal pressure on bike or dock availability.
- Analysis and business value: Consolidated and validated 4,674,903 May 2026 rides from five source tables; defined station activity, net flow, imbalance, and time-based measures that will help prioritize stations for monitoring and rebalancing investigation without claiming confirmed shortages.

Student Performance Analytics | Tableau | [GitHub](#)

2026

- Business problem: School leaders need to combine grades, attendance, behavior, and intervention history to identify students and groups requiring earlier review.
- Analysis and business value: Integrated five synthetic datasets for 120 students into three dashboards; found a 12.37-point grade difference below versus at-or-above 85% attendance, supporting attendance as a human-review trigger rather than an automatic intervention rule.

World Life Expectancy Analysis | MySQL | [GitHub](#)

2026

- Business problem: A global health organization needs a transparent way to prioritize countries for deeper investigation when analytical resources are limited.
- Analysis and business value: Cleaned 2,941 records into 2,938 validated country-year observations and used CTEs, window functions, correlation, GDP-peer benchmarks, and a six-indicator screening score to create an auditable review list rather than an automatic funding decision.

Electronics Sales Performance Analysis | Excel | [GitHub](#)

2026

- Business problem: Sales leaders need to distinguish high-volume products from high-revenue products and understand how concentrated performance is across the catalog.
- Analysis and business value: Cleaned 30,394 rows into 30,206 validated transaction lines and built an interactive dashboard for \$5.64M revenue, 29,018 orders, and 33,969 units; showed that laptops and phones produced 61% of revenue while batteries led unit volume, supporting separate merchandising views of demand and value.

Employee Satisfaction Analysis | Tableau | [GitHub](#)

2026

- Business problem: HR leaders need to locate satisfaction gaps and recurring concerns without allowing unequal department sizes or confounding factors to distort comparisons.
- Analysis and business value: Joined 3,711 survey responses to 1,000 employee profiles, normalized concern shares within departments, and identified Finance as the lowest-satisfaction group; the dashboard directs targeted listening and commute or compensation investigation without claiming causality.

EDUCATION AND CERTIFICATIONS

MBA (GPA: 4.0/4.0) University of Maryland Global Campus	Expected May 2028
M.S., Data Analytics (GPA: 4.0/4.0) University of Maryland Global Campus	Expected May 2027
Graduate Certificate, Business Analytics University of Maryland Global Campus	Aug 2026
Google Data Analytics Certificate Google	Sep 2021
B.A., Chemistry University of Maryland Baltimore County	Dec 2020

PROFESSIONAL EXPERIENCE

Retail Operations Associate	Nov 2025-Present
------------------------------------	-------------------------

Kohl's, Laurel, MD

- Support inventory processing and order fulfillment across a 2,000+ unit environment while adapting to changing daily operational priorities.
- Provide customer service by responding to shopper questions and communicating inventory or order needs to the appropriate team members.
- Earned Associate of the Month within four months for operational performance and adaptability.

Guest Services & Operations Supervisor	Dec 2018-Present
---	-------------------------

Chesapeake Employers Insurance Arena, Baltimore, MD

- Trained 50+ employees and supported real-time staffing and safety decisions during arena operations.
- Held ongoing conversations with arena leadership to communicate frontline observations, staffing needs, and operational concerns.
- Provided customer service to arena guests and communicated questions or concerns to the appropriate staff.

Middle School Science Teacher	Aug 2023-Jun 2025
--------------------------------------	--------------------------

Anne Arundel County Public Schools, Odenton, MD

- Monitored performance, attendance, and behavior for 300+ students to identify patterns and students requiring closer review.
- Communicated findings and coordinated targeted supports with school leaders, teachers, families, and students.
- Responded to student and family questions, explained performance concerns, and communicated next steps with school staff.

Workforce Specialist	Oct 2021-Aug 2023
-----------------------------	--------------------------

UMBC Facilities Management, Baltimore, MD

- Coordinated hiring, onboarding, scheduling, and training for 20-30 student employees while providing day-to-day service and support.
- Analyzed work-order performance and contributed to operational changes that reduced response time by 20%.
- Analyzed employee satisfaction survey results and communicated workforce findings and recommendations to operational stakeholders.

High School Science Teacher	Sep 2020-Jun 2021
------------------------------------	--------------------------

Prince George's County Public Schools, Hyattsville, MD

- Evaluated performance and attendance patterns across 150-200 students.
- Built and maintained recurring Excel reports used for instructional planning and intervention decisions.
- Responded to student questions and explained performance, attendance, and support expectations in clear terms.
